Subject: ECCF pilot program

Mr. Stephenson,

Here at the NSA, we have been following the progress of Mr. Hipkin's eccf pilot program. We currently perform approx. 15,000 drug tests annually and our testing is conducted worldwide. This technology will greatly improve our process and are looking forward to the day we can implement it. Please continue to support this pilot program for the good of the entire DOD drug testing program.

Thank You,

Robert Ekstrom
