Subject: Electronic CCF

Dear Sir,

I am a part-time, independant collector, and have worked for and continue to work for multiple TPA's in the drug testing industry.

I am writing to you concerning using electronic CCF's in the collection process for DOT and federal tests. I believe that by not allowing the use of them is preventing the industry from taking a large step forward in the accuracy, facility, and control of the collection process.

It seems that we have fallen behind the times by not using the technology of electronic forms and signatures which are currently in use everywhere from banks to Walmart.

Thank you for taking the time to read and consider my thoughts,

Corey Bybee

Independant Collector
