**Subject:** Revisions to Federal Chain of Custody (CCF) Forms

Dear Robert-

My company is subject to federally regulated drug testing under 49 CFR Part 40 and I urge HHS to implement an electronic CCF. We have been using the eScreen's electronic chain of custody for more than 18 months for our non-DOT testing with great success. The system is far superior to anything that I have worked with in the past. We have eliminated paper and have improved our processing time with this process.

Please accept these comments as my full support for the proposed revisions to the CCF.

Regards,

Tim Gratto  
Dr Pepper Snapple Group
